Description

The HD-1800A analog servo from Power HD is a great general-purpose micro servo at a great price. Servo horns and associated hardware are included.

Dimensions

Size:20.8 x 11.5 x 24.0 mm

Weight:8 g

Digital?:N

Free-run current @ 6V:140 mA

Stall current @ 6V:460 mA

Speed @ 6V:0.08 sec/60°

Stall torque @ 6V:1.3 kg-cm

Speed @ 4.8V:0.11 sec/60°

Stall torque @ 4.8V:1.0 kg-cm

Lead length:6 in

Hardware included?:Y

This is a great general-purpose actuator for tiny mechanisms. The lead is terminated with a standard "JR"-style connector, which is Futaba-compatible. Mounting screws and an assortment of servo horns is included with this servo. The product picture shows an example of this included hardware (hardware might vary). You can find more information about this servo under the specifications tab and in its datasheet.

Note that, as with most hobby servos, stalling or back-driving this servo can strip its gears.

The HD-DS65HB is a great high-performance, fast actuator for small mechanisms. It has digital electronics for improved performance. The lead is terminated with a standard "JR"-style connector, which is Futaba-compatible. The pictures below show the servo's gear train and an example of the hardware that might be included with this servo (hardware might vary).
